

# GMC Red Rosin

## Product Data Sheet

### Product Description

**GMC Red Rosin** is a lightweight single ply kraft paper soaked in red organic dye. It is a recyclable product “Made in the USA.” The organic fibers in the paper are resistant to substances bleeding through to the surface beneath. **GMC Red Rosin** provides the needed protection for different surfaces during general construction.

### Product Uses

**GMC Red Rosin** is used to protect surfaces from general construction such as foot traffic, wall and ceiling texturing, paint dripping, floor and tile installation, etc. It can be used as masking paper, flooring materials, roofing materials, wall construction materials, and many other applications. This building paper serves as a separation barrier, protecting against wind and dust intrusion while reducing squeaks. Before installing, all surfaces must be free of dust, dirt and debris to prevent the paper from being punctured.

### Product Features

**GMC Red Rosin** is cost efficient protection for new and old installations. It is economic in value when compared to heavier weight paper.

**GMC Red Rosin** is environmentally safe and made from 100% recyclable fibers.

**GMC Red Rosin** is easy to install and remove saving time and money.

**GMC Red Rosin** reduces friction between subfloor and wood flooring.

**GMC Red Rosin** has multiple uses for general construction.

### Product Properties

<b>Thickness</b>	<b>11mils</b>
<b>Roll Weight</b>	<b>11-13 lbs</b>
<b>Roll Size</b>	<b>36” wide by 167 feet long</b>
<b>Pallet Size</b>	<b>100 rolls</b>
<b>Pallet Weight</b>	<b>1240 lbs</b>

*Red Rosin covers 500 SF and is 36” x 167 lineal feet.*
