

18" 30 ASTM D 226 Asphalt Saturated Organic Felt

Product Data

A **GREEN** Roofing Product

GMC 18" 30 ASTM D 226 SHAKE FELT is an industry leading, superior quality underlayment. Manufactured to the highest specifications.

Certifications

ASTM D 226, Type II

USES

GMC 18" 30 ASTM SHAKE FELT is used as a **breathable** secondary weather resistant barrier when installed with the primary shake or shingle product.

Features and Benefits

- **Reliable** Proven success on millions of structures for over a century.
- **Compatible** Approved and recommended for use in natural wood and artificial shake and shingle roofing applications.
- **Versatile** Manufactured to perform in all climate conditions and all types of structures, Residential, Commercial, and Governmental.
- **Recognized** #1 choice of roofing professionals and trade organizations.
- **Required** Specified for use by architects, building code officials and primary roofing manufacturers. (Note: approved underlayment required to validate warranty on most all roofing systems.)
- **Permeable** Breathable to help prevent dry rot, mold and other structural damages.
- **Walk-able** Natural non skid surface ideal for steep slope roofing.
- **Durable** Remains viable even after prolonged exposure. Maximum 60 day in single ply and 6 months in two ply applications.
- **Eco-friendly** Organic dry felt made from 100% post consumer recycled material and domestic asphalt from a local source. Leed points may be available
- **USA Owned and Operated** Jobs for local residents, good for the economy. GMC is a proud supporter of several national and local charities.
